

City of Port St. Lucie

Sign Application Addendum

I understand the Building Department may have concerns that the height (as indicated on the submitted sign permit application) of the proposed sign located at _____ may exceed the maximum allowance of ten (10) feet above the crown of the road.

If requested, as part of the permitting of this project, I will provide the Building Department with a certified drawing from a licensed surveyor verifying the sign is in compliance with the height requirements.

It is further noted, failure to provide this documentation will result in rejection of the submitted sign application until required documentation is presented for review.
