

BETTER ROADS • MORE SIDEWALKS • CLEANER RIVERS

Projects

Half-Cent Sales Tax

Providing a safe, comfortable, and economical road surface is a high priority for the City of Port St. Lucie. It requires balancing other priorities and making difficult decisions in order to manage the City's roadway network with a limited budget.

Repaving

Subtotal
\$27,500,000

Citywide — \$26,250,000

Gatlin Blvd. — \$1,250,000

Challenge

The rate at which pavement deteriorates depends on many factors, including its environment, traffic volumes, loading conditions, original construction quality, and interim maintenance procedures such as crack-sealing and rejuvenation.

Solution

Timely and effective maintenance can extend the pavement's life thus reducing costly replacement in the future. See the City's Repaving Master Plan.

Benefits

Provides for safe vehicular and pedestrian travel. A freshly paved roadway beautifies the neighborhood.
