Dear Golf Course Operators of Port St. Lucie,

This letter serves to ask for your continuing help in serving our community in this time of crisis.

As you know, the Novel Coronavirus Disease 2019 (COVID-19) is a severe acute respiratory illness that can spread among humans through respiratory transmission and has proven to be life-threatening to our senior and immunocompromised citizens. In addition to this direct threat to life, COVID-19 threatens our society and way of life in many ways, including: spreading at a rate that has the potential to overwhelm our medical system; shutting down essential services because too many people are out sick; disrupting the food and essential goods supply chain; contracting the world, national, state and local economies; and interrupting all social activities.

In response to these grave threats, our nation, state, county and City of Port St. Lucie have all made formal declarations of emergency, taking extraordinary measures to protect public health and safety and calling upon all citizens to be informed, prepared and committed to a national response that relies upon social distancing. Attached for your convenience, please find the White House's Coronavirus Guidelines for America, which can be found on the Centers for Disease Control and Prevention webpage and explains social distancing in detail.

As you are likely aware, on April 1, 2020, Governor DeSantis issued Executive Order 20-91, which stated, in part, "all persons in Florida shall limit their movements and personal interactions outside of their home to only those necessary to obtain or provide essential services or conduct essential activities". As you are also likely aware, soon after issuing this order, the Governor's Office clarified that golf is considered an essential activity provided that it is played consistent with social distancing requirements.

Accordingly, this letter serves to ask for your help in offering this essential—not to mention fun, healthy and outdoor—activity while simultaneously safeguarding the health of your guests and our community by adhering to as many of the following practices as possible.

- Screening all staff, volunteers and guests for flu-like symptoms and sending any symptomatic persons home immediately.

- Cleaning.
 - Provide disinfectant wipes or equivalent in common areas and carts.
 - Disinfect carts, rakes, scoops and other equipment after every round.
 - Disinfect hourly or, if practicable, after every use, at a minimum all high touch areas, including but not limited to: cash registers, credit card areas, water coolers, machines, driving range equipment, driving range balls.
 - Disinfect after closing or before opening all areas of the business that customers may touch or come into contact.
 - Require employees or independent contractors present to wash and/or disinfect their hands at least once per hour.
 - Clean and disinfect any pen, stylus or screen used to sign receipts after each customer or waive the need to sign a receipt.
 - Ensure that no more than 10 people, including staff, are gathered in a particular area
 - Ensure that customers at checkout are separated by at least 6 feet.
 - Disinfect all door handles used by the general public at least hourly during business hours.
 - Do not allow more than 25% of an enclosed area's maximum occupancy.
- Travel to the golf course. Please consider discouraging golfers from different households from carpooling/traveling to the golf course in the same vehicle.
- Pull the pin with a wipe or paper towel that is immediately disposed of; or provide an alternate rule for leaving the pin in place.
- Do not allow use of the driving range if the range balls, buckets and other equipment cannot be washed and/or disinfected after every use.
- No more than one person per cart unless the persons are members of the same household.
- All golf course personnel and guests should observe social distancing requirements.
 - Practice social distancing by staying at least 6 feet away whenever practicable from another person, excluding immediate family members, caretakers or household members;
 - Cover all coughs and sneezes with their elbow or tissue;
 - Do not shake hands or share clubs, excluding immediate family members, caretakers or household members.

On behalf of the people of Port St. Lucie, I would like to thank you and your team for all that you are doing to serve our community and for your consideration of these requests. I think we are in for some tough weeks ahead; but, I am certain that we will make it through this crisis and that, when we do, we will be able to look back and see that people like you and your team members made a real difference by giving people a safe and healthy port in the storm.

We look forward to your reply and our continuing collaboration on serving our community. The deliverer of this letter will provide you with all of our points of contact. Additionally, you are always invited to contact me and the City Council Office at 772-871-5159.

Sincerely,

Gregory J. Oravec
Mayor

30 DAYS TO SLOW THE SPREAD

Listen to and follow the directions of your **STATE AND LOCAL AUTHORITIES**.

IF YOU FEEL SICK, stay home. Do not go to work. Contact your medical provider.

IF YOUR CHILDREN ARE SICK, keep them at home. Do not send them to school. Contact your medical provider.

IF SOMEONE IN YOUR HOUSEHOLD HAS TESTED POSITIVE for the coronavirus, keep the entire household at home. Do not go to work. Do not go to school. Contact your medical provider.

IF YOU ARE AN OLDER PERSON, stay home and away from other people.

IF YOU ARE A PERSON WITH A SERIOUS UNDERLYING HEALTH CONDITION that can put you at increased risk (for example, a condition that impairs your lung or heart function or weakens your immune system), stay home and away from other people.

For more information, please visit
CORONAVIRUS.GOV

DO YOUR PART TO SLOW THE SPREAD OF THE CORONAVIRUS

Even if you are young, or otherwise healthy, you are at risk and your activities can increase the risk for others. It is critical that you do your part to slow the spread of the coronavirus.

Work or engage in schooling **FROM HOME** whenever possible.

IF YOU WORK IN A CRITICAL INFRASTRUCTURE INDUSTRY, as defined by the Department of Homeland Security, such as healthcare services and pharmaceutical and food supply, you have a special responsibility to maintain your normal work schedule. You and your employers should follow CDC guidance to protect your health at work.

AVOID SOCIAL GATHERINGS in groups of more than 10 people.

Avoid eating or drinking at bars, restaurants, and food courts — **USE DRIVE-THRU, PICKUP, OR DELIVERY OPTIONS.**

AVOID DISCRETIONARY TRAVEL, shopping trips, and social visits.

DO NOT VISIT nursing homes or retirement or long-term care facilities unless to provide critical assistance.

PRACTICE GOOD HYGIENE:

- *Wash your hands, especially after touching any frequently used item or surface.*
- *Avoid touching your face.*
- *Sneeze or cough into a tissue, or the inside of your elbow.*
- *Disinfect frequently used items and surfaces as much as possible.*

CORONAVIRUS.GOV

School operations can accelerate the spread of the coronavirus. Governors of states with evidence of community transmission should close schools in affected and surrounding areas. Governors should close schools in communities that are near areas of community transmission, even if those areas are in neighboring states. In addition, state and local officials should close schools where coronavirus has been identified in the population associated with the school. States and localities that close schools need to address childcare needs of critical responders, as well as the nutritional needs of children.

Older people are particularly at risk from the coronavirus. All states should follow Federal guidance and halt social visits to nursing homes and retirement and long-term care facilities.

In states with evidence of community transmission, bars, restaurants, food courts, gyms, and other indoor and outdoor venues where groups of people congregate should be closed.
